How to Create an Account on Droplet Lab Mobile Application?

Registration · https://dropletlab.com/knowledge-doc/how-to-create-an-account-on-droplet-lab-mobile-application/

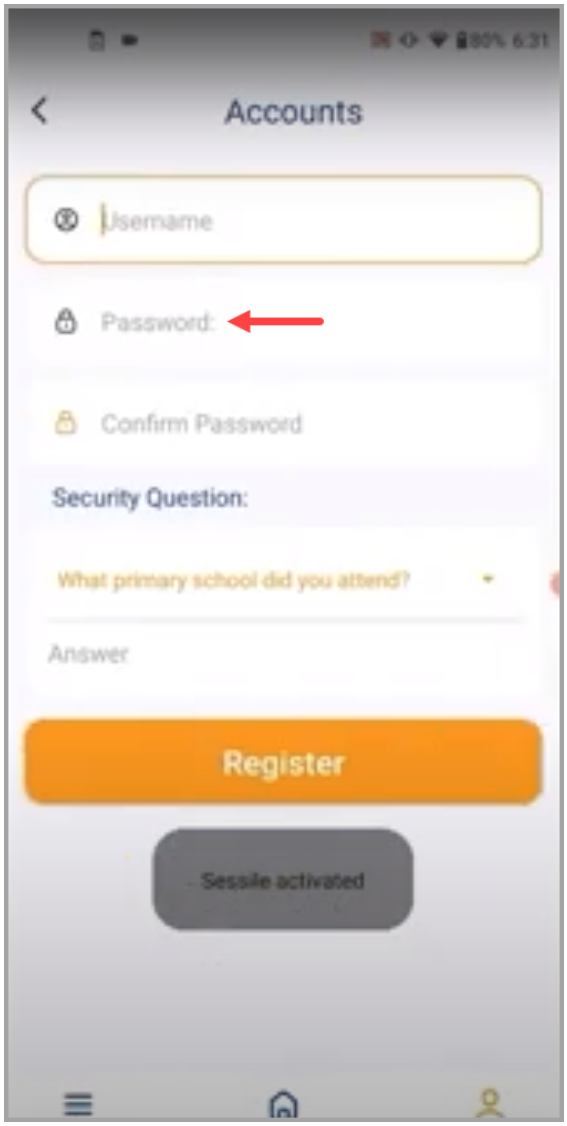

1. From the Accounts screen, tap the + button above the Add another Account heading. Doing so opens the Accounts screen.

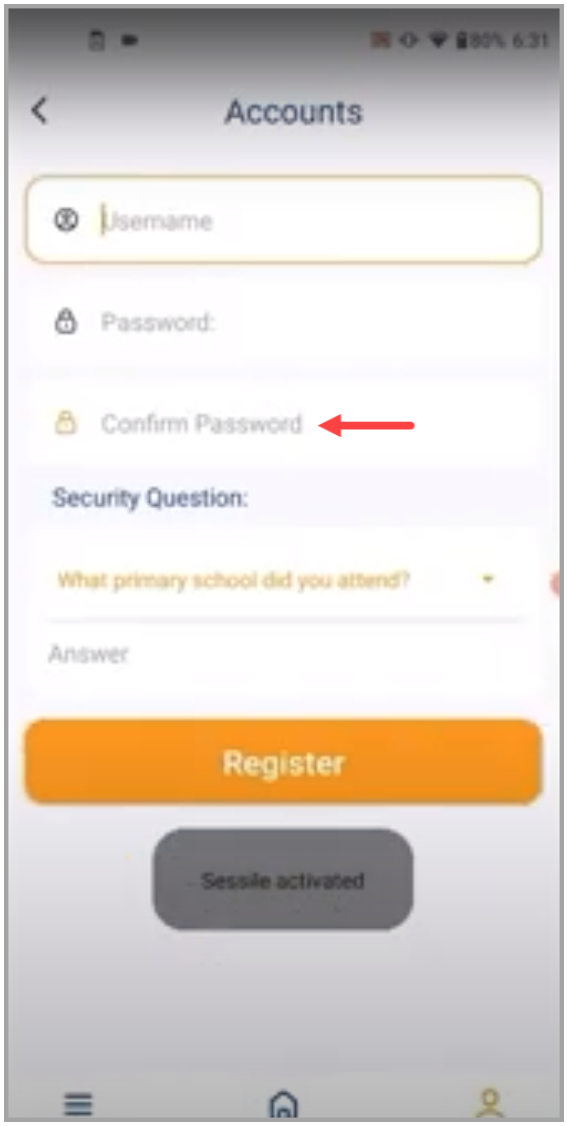

2. Use the Username field to enter the username with which you want to register on the application.

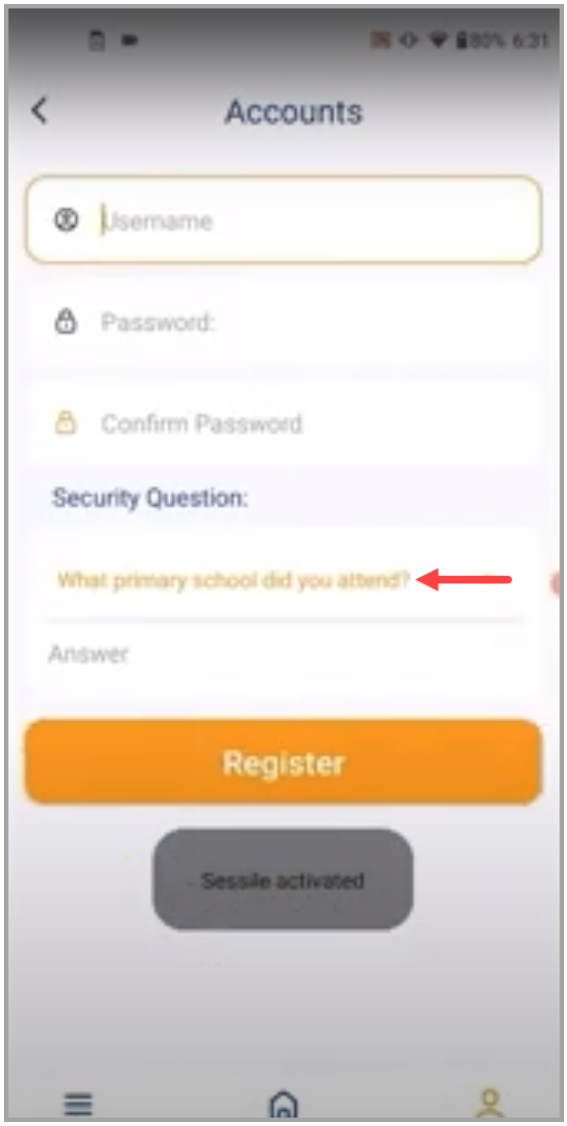

3. Enter the password associated with the username in the Password field.

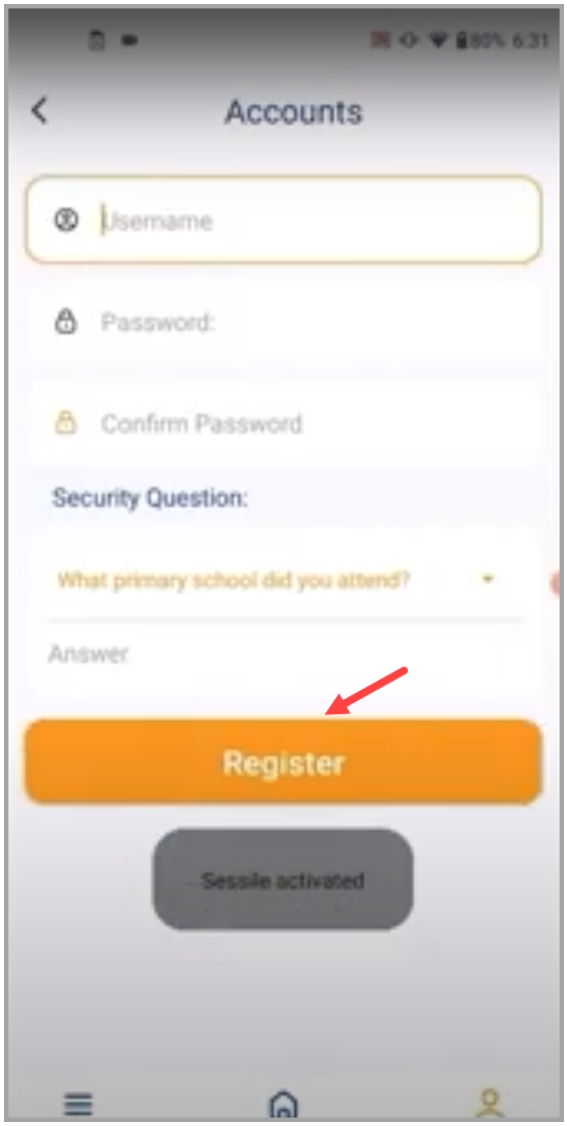

4. For confirmation, re-enter the password in the Confirm Password field.

5. Create a security question for account recovery using the Security Question field.

6. Once the required details are filled in, tap the Register button.
